

SERVICES

DIVISIONS

Supply Chain

4PL.COM | is a Fourth Party Logistics Service provider that is able to effectively coordinate all third party activities to its optimal Local and International capacity. The company oversees the full supply chain from seller/producer to buyer with the main focus being Commodities within the Agricultural, Mineral and Commercial Markets.

Technology

LMS | is a technology company offering software and related I.T tools to the Southern Africa market. The business allows bulk operators the ability to consolidate and view their supply chain on a real time basis

Rail

BRA | is focused on offering cost effective and technological rail solutions to the Sub Sahara African market. The business forms part of the 4PL Group of companies which focus on supply chain solutions to the bulk industry from origin to destination. BRA operates in conjunction with all the national railway operators by assisting our customer base with rolling stock, locomotives and all other elements related to a rail operation. BRA also operates private capacity.

Material Handling

Material Handling | is a business that operates material handling terminals within South Africa and SADAC countries. Material handling, stockpile management and cargo containerisation is a fundamental part of the 4PL GROUP service offering. Facilities offer on-line reporting, high levels of security and world class methodologies in terms of material handling.

Finance

CAPSOL | Capital Solutions is a non-asset based company that specializes in facilitating trade transactions between locally based mining operations and international buyers / traders. The company forms part of the 4PL Group of companies, as the trade facilitation and finance leg of the company. It is however administered completely as a separate entity, and does not trade in commodities.

Plant

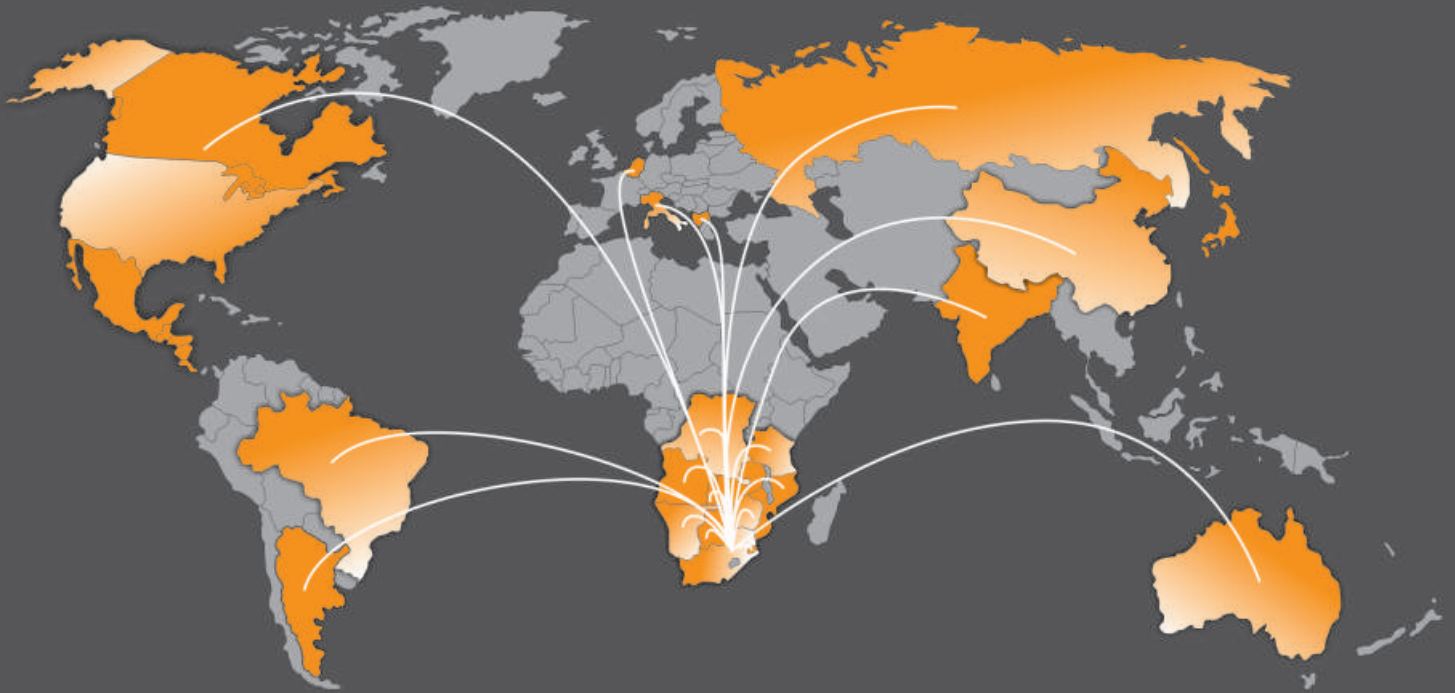

Plant & Equipment | is a company that offers yellow plant and equipment internally to the group companies. The business was established to enhance the service offering of our supply chain companies and to ensure reliability and security of product.

Fleet

4PL Fleet | is a transport business that was purchased as a going concern in 2010 from AFGRI Limited. The business is a bulk commodity carrier operating and owning a fleet of truck tractor's coupled with 34ton side tipper trailers and grain trains. The business operates within the borders of South Africa and moves bulk mineral and agricultural commodities.
